Subject: Microsoft%20Settlement

Dear DOJ,

I am against the currently proposed settlement with Microsoft -- it has no 'teeth' and will not keep Microsoft from repeating their past abuses (which I believe was the whole point of the anti-trust proceedings). At the very least, it should be modified so that Microsoft's future actions will be subject to strict oversight and timely control should they abuse their monopoly again. Better still, the settlement should promote conditions that reduce the nation's dependence on Microsoft, by promoting interoperability and open standards.

Thank you for your time,

Jeremy Friesner
